

Dear Bride,

We have prepared this check list to help you when you start to think about what flowers you need for your wedding day. It is a guide to common and popular uses for wedding flowers. Remember, every wedding is different and some items you may not need or want. You may also think of something of your own to add. Make notes, fill in any information, and bring this list, along with pictures, color swatches, or other information that will be helpful when we sit down and plan your wedding flowers.

Please call us at 773-792-2797 when you are ready to schedule an appointment for a consultation or have any floral questions. Or, feel free to stop in to browse through our wedding photo books on your own.

We look forward to helping you make your wedding day a beautiful one!
